## DETAILED ACTION

### *Title*

1. The title of the invention is not accurate, and should be amended to clearly indicate the invention to which the claims are directed, and it is suggested to delete "AND METHOD".

### *Claim Rejections - 35 USC § 112*

2. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 8, "said mechanism" lacks antecedent basis, and further is vague and indefinite as to what disclosed structure it refers; in line 19, "mechanism" is awkward and vague, and it seems that --a-- should be inserted before "mechanism" or the like; in line 26, "said X axis" and "said Y axis" each lacks antecedent basis; in line 27, "said [theta] axis" lacks antecedent basis.

In claim 2, line 2, "said positioning means" lacks antecedent basis; in lines 5-6, "said motive means" lacks antecedent basis.

In claim 3, line 1, "said reference assembly" lacks antecedent basis.

In claim 5, line 1, "said comparing means" lacks antecedent basis; in line 2, "said reference assembly" lacks antecedent basis; in lines 2-3, "said motive means" lacks antecedent basis.
